Safety -- JR

- Safety contact (JR): +33619128616

Hi everybody,

This being the last competition day, I cross my fingers in the hope of having an accident-free contest.

But in any case, we have been lucky. All captains and pilots have been warned that we wouldn't accept dangerous flying.

I admit there are very experienced pilots, and not everyone has the same feeling of comfort. But when I receive a mail from a pilot who, and I use his own words,

"I myself have had enough about bad behaviour. Tomorrow is luckily my last competition day on a FAI class One competition. I will do my best to survive."

The pilots he speaks of, are multiple offenders, they are known to the other pilots, they are known to their captains, and they should not be members of a national team.

In any case, I thank you all for having kept it safe up to today, one reminder to you all, and we will enjoy tonight's party and the official prize giving ceremony of tomorrow.

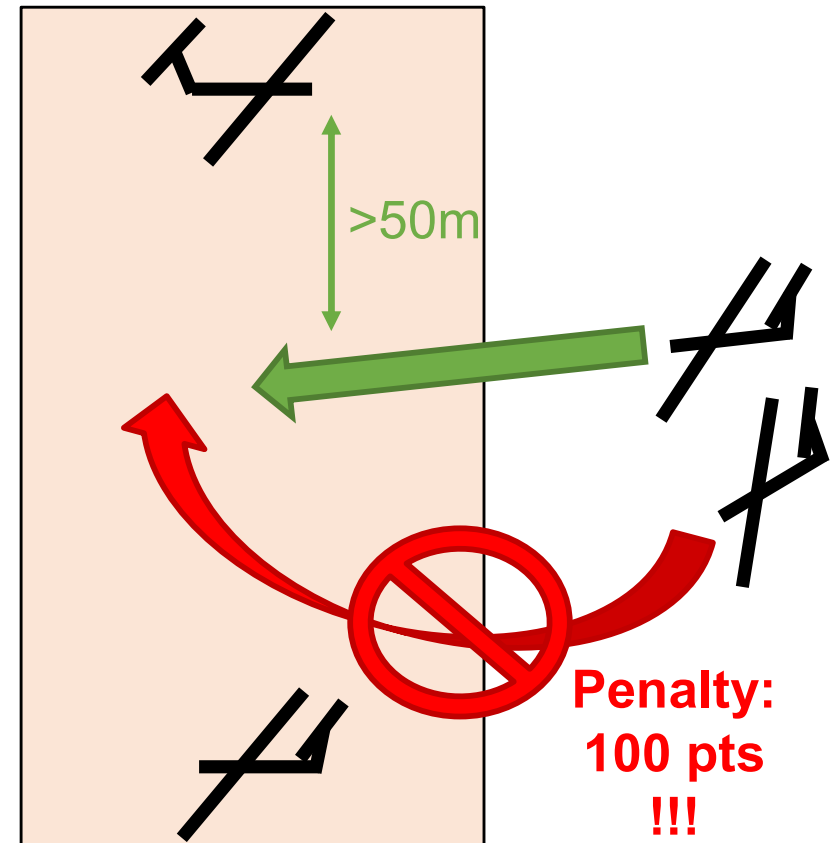

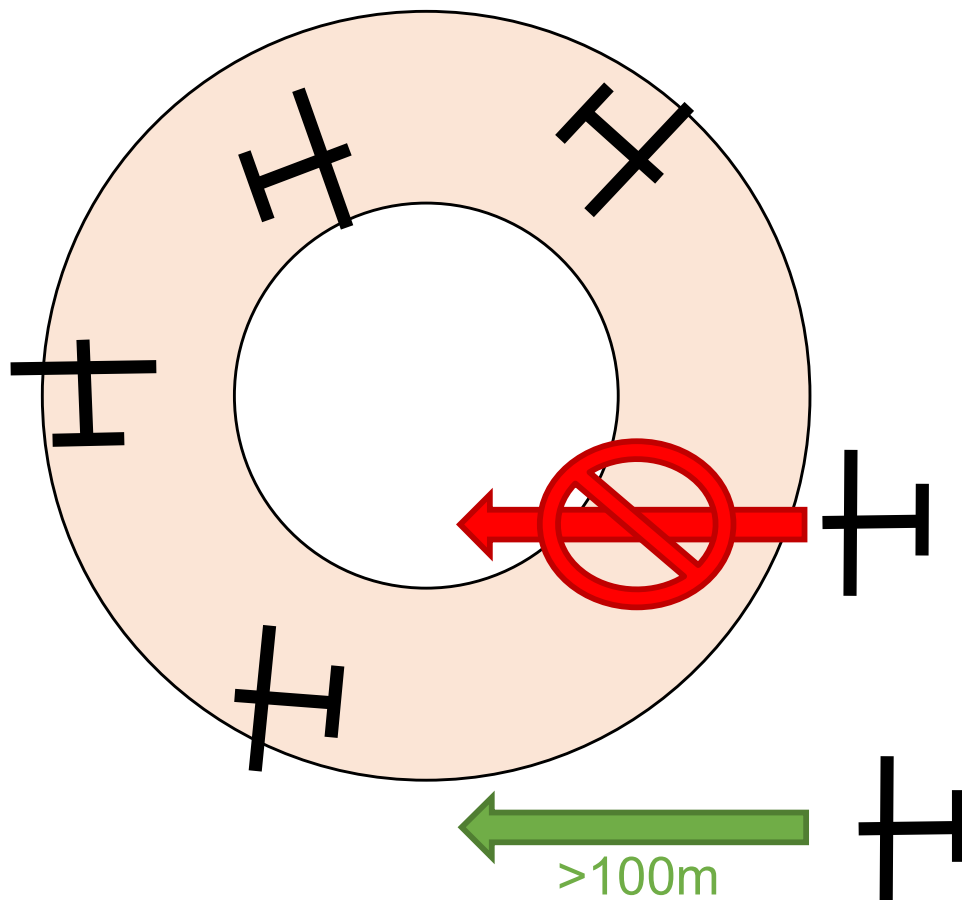

Thank you for your permanent attention.

Jean-Renaud Faliu Safety Officer WGC Szeged 2022
